Homelifts
BY CAMBRIDGE ELEVATING

Compact Home Elevator

The Most Comfortable Travel Experience Between Two Floors.

Homelift Elevators Are... Safe

The Most Comfortable Travel Experience Between Two Floors.

Lower Level

Upper Level

Soft stops & starts for smooth ride.

Safety sensors prevent the cab moving in the event there is an obstruction below.

Cab can be completely hidden when not in use.

Floor cover is securely in place when elevator is on lower level.

Safety sensors prevent the cab moving in the event there is an obstruction above.

No-step entrance for wheelchair users or those with limited movement.

Modern

Designed and constructed with modern technology, a Homelift is both attractive and engineered to last, while incredibly easy to operate.

Versatile

Unlike stairlifts, a Homelift can be used to move anything, such as:

- Laundry
- Luggage
- Pets
- and more...
